LTM

Kamisetty Satya Teja

Experience Summary

- Leverage 5.3 years of experience as a Backend Developer specializing in Java, Spring Boot, RESTful microservices, and Apache Kafka.
- Developed and maintained scalable backend systems, optimizing performance and reliability for enterprise-grade applications.
- Implemented RESTful microservices architecture, improving modularity and facilitating seamless integration with front-end and third-party services.
- Enhanced application performance and ensured timely project delivery through effective collaboration and technical expertise.

Skill Summary

Market Trending	**Apache Kafka** (Kafka Producer API, Kafka Consumer API, Kafka Topics, Kafka Partitions)
DEV-Ops	**Docker** (Dockerfile), **Kubernetes** (Kubernetes Pods, Kubernetes Deployments, Kubernetes Services, Kubernetes ConfigMaps, Kubernetes Secrets), **GitLab CI/CD**
Testing Frameworks	**JUnit 5** (JUnit Platform, JUnit Assertions), **Mockito** (Mockito Annotations, Mockito Mocks), **JMeter**
Programming Languages	**Java** (Java Collections Framework, Java Streams API, Java Concurrency Utilities, Java Memory Management, Java Annotations, Java I/O Streams, Java Generics)
Frameworks	**Spring** (Spring Core Container, Spring Beans, Spring AOP (Aspect-Oriented Programming)), **Spring Boot** (Spring Boot Auto-Configuration, Spring Boot Starters, Spring Boot Actuator), **Spring Data JPA** (JpaRepository, CrudRepository, Query Methods, @Query Annotation), **Spring JDBC** (JdbcTemplate), **Spring Security** (Spring Security Web, Spring Security Method Security), **Spring MVC** (DispatcherServlet, HandlerMapping, ViewResolver, ModelAndView, @Controller Annotation, @RestController Annotation), **RESTful Web Services** (Spring REST Controllers)
Databases	**Microsoft SQL Server**, **MySQL**

Work Experience

Concentrix Catalyst
Microservice Developer (Client: TPMG)
Dec 2020 - May 2026

Projects

Project	Video Visits	**Team Size**	
Start Date	Jan 2021	**End Date**	Jul 2023
Organization	Concentrix Catalyst (Client: TPMG)		
Description	• Video Visits is an application enabling communication between clinicians and patients. • Offers separate interfaces for clinicians and patients. • Clinicians interact via the VV provider application. • Patients use the member app for communication.		
Role & Contribution	Microservice Developer		
Technology & Tools	Java, Spring Boot, Spring, Kafka, Junit, Eclipse,Spring Tool Suite(STS), Splunk, Maven, Gitlab, Postman, Dbeaver, Sql, Jmeter, docker, Kubernetes		

Project	Clinician Connect	**Team Size**	
Start Date	Aug 2023	**End Date**	May 2026
Organization	Concentrix Catalyst (Client: TPMG)		
Description	• Developed the CC (Clinician Connect) App for Kaiser Permanente to support mobile access to clinician data. • Integrated multiple backend services for secure, real-time clinician information and availability schedules. • Enabled clinicians to quickly access data on other clinicians and care teams. • Deployed the app for internal use within Kaiser Permanente's network.		
Role & Contribution	Microservice Developer		
Technology & Tools	Java, Spring Boot, Spring, Kafka, Junit, Eclipse,Spring Tool Suite(STS), Splunk, Maven, Gitlab, Postman, Dbeaver, Sql, Jmeter, docker, Kubernetes		

Educational Qualification

Bachelor of Technology | SRM Institute of Science and Technology, Chennai, India | 2020
